

pBMN YFP-LID iHcRed-t (8097 bp)

This plasmid contains the ampicillin resistance gene.

YFP gene is located between BamHI/EcoRI with a Kozak sequence and HA tag at the N-terminus. The LID domain (EcoRI and NsiI fragment) is composed of FKBP12(F36V) plus 19 amino acids at C-terminus of the FKBP domain.
